

## Activity One – Online Activity

JA Assembling Your Career is an online platform designed to provide you with practical information about STEM related careers.

- This interactive platform has a step-by-step set of activities which guides you through the different opportunities within STEM.
  1. Opportunities Abound
  2. Play the Part
  3. Steps to Success
- Follow the instructions provided, you will not be able to move to the next screen until you have chosen the correct answers and completed the specific tasks.

- Click on the webpage <http://www.juniorachievement.org/s3/apps/STEM/index.html> and follow the directions.

**Remember:** It is never too early to start planning for a career in science, technology, engineering or mathematics (STEM), but you should also make sure to follow your interests and passions when choosing a career.

On the next page complete the segments on what your interests are, and think about the skills that you also have. **Hint:** You might have a lot of skills from the hobbies or interests you're involved in!

## **Activity Two – My Skills and Interests**

Finding out what you are interested in and enjoy working at can help your future studies and can lead to rewarding careers. In the space provided below list your interests or hobbies (i.e. what you like to do in your spare time). You should also list your skills in the space provided below (this can range from your skills working on a team to your skills in taking initiative when working on your own).

**My Interests:**

**My Skills:**

### Activity Three - STEM Careers Research

Do some online research and list some skills necessary for the careers noted below:

**Aeronautical Engineer**

--

**Software Developer**

--

**Sports Nutritionist**

--

**Forensic Scientist**

--

## Activity Four - Career Planning

It's never too early to start planning for a career in science, technology, engineering or mathematics (STEM). Complete this worksheet by providing answers in the boxes below. Feel free to add to the worksheet over time as you discover new resources or to re-do this worksheet as you discover new interests.

Career/Job I am interested in:

Hobbies that would be helpful for this career:

A person I could interview about this career:

An interesting website I could visit to learn more:

Two questions I have about this career:

Ways my family could help me:

Clubs or local groups I could join:

A project I could do in school or home to learn more:

What websites or other resources could I use?
